Dato' Dr. Lim Siow Jin

Founder and CEO of
DXN Holdings Bhd.

WELCOME LETTER FROM DATO' DR. LIM SIOW JIN

Good morning DXN!

Here we are, standing at the end of year 2015, working hard in the grip of great change. Increasingly, we are improving and reinforcing our DXN eWorld to raise the confidence and the communication abilities in order to engage fully with this ever-evolving MLM world.

Being the world's largest Gano-derma company, we have the most effective structure and solid production lines for our unique products. We also have an extremely talented IT team of enthusiastic and experienced individuals who are working on this very important marketing tool. Branches and main stockists are located

in more than 180 countries worldwide while we have farms in Latin America, Europe, India and Malaysia. All these facts build the confidence in the online commerce. We continuously strive to enhance the varieties of online products by searching all corners of

the globe for quality products in order to achieve the target as a global leader in online MLM commerce.

As for the most prominent DXN members, we're now inviting the leaders to explore and interact with us.

Work hand-in-hand with your downlines and network, inspire them by telling your true and feasible stories, share with them the knowledge about the products and listen to them. Encourage them to keep on

sponsoring new members and to focus on the simple and powerful DXN plan - 300ppv a month. Inspire them by telling them how the initiative, the products or an idea can improve their financial status, their health and wealth and assure them a free life.

We create an opportunity for a better future through unique, high quality products and excellent market supports, we develop our alternative distribution channels in every possible way and as an extra advantage, you get to work with most motivated people from all over the world!

DXN, One World One Market!

*Dato' Dr. Lim Siow Jin
DXN's founder and CEO*

Mr. Sean J. Higgins,

Marketing Coordinator for
Europe Region

INTERVIEW WITH MR. SEAN HIGGINS

At the beginning of October 2015, a new Marketing Coordinator for Europe was appointed. I immediately took the occasion to make an interview with Mr. Sean Higgins, so our readers can find out more about him.

TEXT WRITTEN BY
Susanna Palma Krusinszki

1. Please introduce yourself to the readers.

I'm an Englishman with an Irish name who lives in a village in the West Midlands, near Birmingham, 180 k from London where I was born. Married to Sheila we have two grown up daughters, Sarah and Becky. The year I first worked in MLM was 1993. I was with the same company until 2007 when I set up my consultancy.

2. You are the new European Marketing Coordinator of DXN. What do you like best about your job?

I like working with people, helping them to achieve their goals and with DXN I see a company with great potential here in Europe. I like to build teams and improve performance in small, incremental steps.

3. You have just been to Malaysia. What was your first impression of the DXN world?

My first impression was of a friendly company who pride themselves in sustainable methods of agriculture. The head office staff I met were well informed and the opening of the new branch office was very well organised.

4. In your opinion, what is the most important thing that an MLM company has to do in order to reach success in Europe?

The company should listen to the members and respond to their reasonable requests with positive action. We are building a team, the members

are focused on their goals and the staff support them. My job is to ensure the staff deliver excellent customer service to the members and the members respect them.

5. Can you share with us some of your developing plans?

Dr. Lim has asked me to visit all the offices and staff in the first six months so I am planning quite a few trips. While there, I will listen to members and share some of the exciting ideas to make sure they too support them. Having motivated and happy staff is key to delivering good customer service to the members so some specific training and mentoring are planned.

6. What is your typical day like?

A typical day will start early, I love sunrise. I meet lots of people and try

to greet them in their local language, after all I'm their guest so it's a cour-

tesy. I write complete text not abbreviated so it takes more time to do

e-mails and messages but it is quality not speed which is important to me in communicating with people. I use social media so I read a lot which also helps me to get to know people and I then post messages encouraging people. If travelling, this is often done at airports and in the hotel either last thing at night or first thing in the morning.

7. I heard you are involved in important charity activities. Can you please tell us about it?

When my father was diagnosed with advanced cancer of the prostate, I wanted to do something positive so I set up a group and help organise an annual fund and awareness event to support research at our local universi-

ty, Birmingham. I was also GM for five years at a charity helping families of Palestinians in the West Bank, Israel and Jordan with medical, educational, housing and work support. I have been very fortunate in my life and I think we should help others less fortunate.

8. How do you prefer to spend your time when you're not working?

I am lucky to live in a village near both the countryside and the city. I cycle in the countryside and walk in the parks either on my own or with Sheila. And of course, a walk sometimes takes me to the famous English meeting place, the pub where I can have some traditional drink, ale.

**Pavlos Hatzigiannis
and Nancy Vagkoti,**

Executive Triple Diamond,
Greece

INTERVIEW WITH NANCY VAGKOTI AND PAVLOS HATZIGIANNIS

Nancy and Pavlos from Greece started building the DXN business when their country was going through the hardest economic crisis. Nevertheless, they worked hard and reached great success also in other countries. With DXN they changed their situation and now here they are sharing their inspiring story with you!

TEXT WRITTEN BY
Susanna Palma Krusinszki

1. Please tell us a little bit about yourselves and why you decided to build the DXN business.

Me and my wife Nancy were raised with the mentality of putting others interests first. So, when we saw that with the products we could improve other people's lives, and that everybody could buy them, we felt immediately attracted.

Also, we found that the DXN system could allow many people to achieve a certain level of success that is impossible with many other MLM systems.

Before we started DXN, we were involved in another MLM company and we tried really hard. Also, we had a part time cleaning services business, which we reduced because we did

well in our past MLM business. Finally, me and Nancy are involved in a full time voluntary work that is time and energy consuming.

2. How was the beginning?

When we started, we had to let go of our previous networking affiliation

and focus solely on DXN. Unfortunately, that also meant that we had to let go of 3/4 of our income and live with less, until we could regrow our income. So, when some people talk to us about their economic excuses, why it is hard for them, we tell them that for us the beginning was a lot harder. However, for us, DXN is so huge and the vision so vivid, that the obstacles would melt in front our burning desire for success. Many people are not willing to sacrifice their temporary situation to achieve a better way of living - but it is worth it.

3. How do you find new candidates for your network?

In the beginning I was Internet oriented. However, Internet has only one use - to get you in contact with people. Then you must talk to them. When I consider the way we found our strongest lines, there was only one way to approach them. We picked up the phone. It is very easy when you have something important to say. You just say it, and if it is the right time for them, they join. We don't try to convince people and that saves us energy to talk to those who are actually interested now.

4. What motivates you?

The biggest motivation is the health effect on others. Then, when you do your job, it is a direct line leading to success. Secondary, it was a dream for me to start a significant downline that would multiply automatically and it really happened - even to an extent that we could not imagine!

5. To what do you most attribute your success?

I do not consider myself particularly successful. Maybe in a couple of years. I'd like to tell you this in another way - I only can give the best. If I have it, I can sell it. The DXN MLM system allows me to sell it big. Sell it for a lifetime and get rewards for a lifetime. That realization of the passive income with DXN is my best partner and I'd like to share it with everyone.

6. Which are your favorite products?

Easy: 3in1 coffee and Cordyceps. In the second place I will put the Ganozhi Toner and the Aloe Vera Lotion.

Hello to Freedom! We now have the time to relax, to live our life and not to worry too much. We happened to start DXN at the hardest point for our country's economy, but DXN excels. People around us see that and they are attracted to the effect of DXN in our lives.

8. Please give us a hint about your plans for the future!

Our plan is to develop the Eastern European market. The perspectives are wonderful, and we usually feel like we just began! Also, the Crown Dia-

I have seen many similar products but these top the charts.

7. How has DXN changed your life?

You know, freedom is a big word. It is hard to understand it, until you don't live it. We would like to invite as many people as possible to Say

mond level is a must. The DXN marketing plan opens many wonderful doors and we would like to explore everything and we work to multiply our team's turnover here and globally. Me and Nancy wish a joyful journey with DXN!

The new DXN office and branch opening in Malaysia

September 2015.

MALAYSIA: EXPERIENCE THE DXN WORLD!

Most of the DXN members dream about having the opportunity to visit Malaysia, DXN's home country. Thanks to an outstanding and simple competition, in September 2015 more than 120 European DXN members could participate to the Grand Opening of the new DXN branch and office in Kuala Lumpur and visit the DXN farm.

TEXT WRITTEN BY
Judit Faragóné Keserű

After long hours of travel we arrived to Kuala Lumpur and from the airport we were taken to the Furama Hotel, which is a tall tower.

By dinner time, all the European members have arrived and it was a pleasure to greet each other and enjoy the Malaysian dishes together.

The following morning we all dressed up nicely for a very important event: it was the day of the official grand opening of the new DXN Headquarters in Kuala Lumpur. We were taken to the location by a bus and we were delighted to see how both the office and the surroundings were decorated in a very nice way. It was also a great joy for us to meet Jane Yau in her home country and we also had the chance to meet other international DXN leaders.

Later also the greatest leaders arrived: Dr. Lim, Mr. Jijith, members of the DXN management and the Crown Ambassadors. Together we sang the DXN song that we had been practicing

on the bus. It was such an overwhelming sensation to sing it in Malaysia, in DXN's home country, with leaders from all over the world. This experience really strengthened our

ployees and a VIP office with meeting room, where they were holding a press conference with Dr. Lim.

The last floor hosts a very particular presentation room where the whole DXN technology and scientific background is presented by different tools.

We are proud that DXN has high standard branches not only in Malaysia but also in Europe and many other countries in the world, that respect the true values of the company.

The official program of the day was over, so after lunch we enjoyed a half-day sightseeing tour in Kuala Lumpur.

sense of belonging!

During Dr. Lim's speech it was amazing to see how much he is respected in Malaysia, how he is spreading the positive energy and how his vision regarding DXN's future is determined. After his speech the red ribbon cutting took place and then we enjoyed the entertaining programs and the presence of the dragons that bring luck.

After having enjoyed the Malaysian dishes and a DXN kiwi drink, we had the opportunity to visit the new HQ. The different floors are dedicated to different sections of the company and the walls are decorated everywhere with photos of the DXN farm and cultivations and historical events. There is also a very welcoming DXN Shop, where you can purchase DXN products. We were happy to try products that are still not available in Europe.

The DXN products are very special and high quality products and we were glad to try many of them.

The next morning we woke up very early and we were taken to Kedah by buses to visit the DXN farm. We were

On the other floors you can find presentation rooms, the offices of the em-

very excited to see with our own eyes what we had seen only in pictures and videos until that day! When we arrived we were greeted with joy by the DXN staff, Jane Yau and László Kócsó.

After a delicious lunch we were guided around the farm, the factories, we visited the Spirulina cultivations and we tried the fresh Spirulina powder. We could also observe how the Ganoderma capsules, the DXN coffees and other products are processed.

The experts of the company explained the processing of the materials.

Later finally we could visit the place we most wanted to: the Ganoderma farm.

DXN has the biggest Ganoderma cultivation in the world and thanks to the particular selection and processing the company's Ganoderma products are very effective. It was an outstanding experience to admire the Ganoderma mushrooms there, take them into our hands and take pictures. This was another dream that came true!

In the evening we took the ferry to the island of Langkawi. The following day we explored the beauties and the attractions of the island, among which there is 12 metre-tall sculpture of an eagle. For us it is the symbol of the freedom that DXN gives us. Many of us visited the famous cable car and we crossed the Skybridge which for us meant that with DXN we can arrive to the top!

We also enjoyed the sandy beaches and the swimming pools. Many members decided to add a few extra days to their stay so they could relax completely.

This week gave us an incredible experience. Our faith and commitment grew stronger. We see more clearly the stable background of DXN and the long-term stability of our future.

We thank every DXN leader, distributor and member that contributed to these unforgettable days. We wish all the readers to experience very soon the same sensations that we had.

DXN is a special company also because of the people that belong here. Without DXN we would never have had the possibility to meet these amazing persons and we are glad to enjoy journeys like this with them.

Say hello to freedom!
See you at the top of DXN.

Mr. Osler Sto Tomas,
Executive Double Crown Diamond,
Philippines.

INTERVIEW WITH MR. OSLER STO TOMAS

Mr. Osler is a very successful business builder from the Philippines who visited Europe many times and gave many motivating presentations in our countries. I'm sure that many of you have already heard about him or even participated in one of his presentations. His connection with Europe, his inspiring story and his huge success made it impossible not to interview him for our European readers!

TEXT WRITTEN BY
Susanna Palma Krusinszki

1. Please tell us a few things about yourself!

I am a person who, like most people, have big dreams and aspirations. As a child, I always dreamed of becoming a successful person.

I come from a poor family and I experienced the financial struggles of my parents. We were staying at a rented apartment and a lot of times, it was difficult for them to pay the rent.

However, I am really proud and thankful to my parents who worked hard to send us to school.

My parents encouraged me to take up civil engineering. They believed I can get everything I want if I work overseas. After five years of rigorous

studies I got my degree as a civil engineer. I applied for an overseas job but I was devastated when I learned a huge amount of money required as placement fee to work in Saudi Arabia. I obviously did not have that amount.

I forgot about going abroad and worked as a project inspector for the government's water supply projects. I only stayed for a month because of the small salary and then I forgot about civil engineering.

As I was about to marry and start my own family, I got my dream job. I became a drug pusher - the legal one. As a medical representative, my job was to promote medicines to doctors so they could prescribe them. I had a company-owned car, wore clothes that looked very professional, and a salary just enough to survive. After 10 years of hard work all I accumulated

was debt. I was broke and hopeless. DXN came to my life at the right time. I found hope as I saw the opportunity. I grabbed it, never let it go, and changed my life forever.

Big dreams and aspirations can be realized after all. All you need is the ability to see the right opportunity at the right place and time.

2. When and how did you meet the DXN business opportunity?

I discovered DXN way back April 19, 2000. I was looking for another source of income because I had a difficult time making ends meet. For me, the best way to earn fast was to be in the right kind of business. One problem. I didn't have the money to start one. So, what I was looking for was a business that wouldn't require a big investment. It was possible because of DXN. When DXN was introduced to me, the cost of registration was PHP 350.00, about EUR 7.00. Perfect for a person without money like me! Initially, I got intrigued because the claim was that Lingzhi 3-in-1 Coffee would make me look younger and healthier. Also, I was promised that becoming a millionaire was easy. I told the person making the presentation to stop and just hand me the distributors manual. I researched the Internet and scrutinized the company, Ganoderma, products, and marketing plan like a police officer would interrogate a criminal. I got so interested that I was not able to sleep for weeks.

Honestly, at first, I didn't like the taste and price of the coffee. I like my coffee strong and black and what I used to buy cost three times less. I did not even have the money to become a member.

If I didn't have the money to join and didn't like the taste of Lingzhi 3-in-1 Coffee, why did I pursue DXN?

Answer:

The cost of joining and the taste of the coffee did not matter to me. I can always look for a way to get the needed money and learn to love the taste of the coffee. What I saw was the chance for me to change my family's life. That's it. Clear and simple.

3. In your opinion why DXN is the best choice?

I was 38 years old when I joined DXN. Being unemployed made me desperate to earn money and selecting the right MLM company was crucial.

I chose DXN because of the following reasons:

1. The products are highly consumable. The faster products are consumed, the better it is for me, the distributor, because of the commissions.

2. The products are unique and of high quality. Satisfied customers would repeatedly return to buy the products because they cannot get it

from anywhere else except DXN.

3. The products are easy to promote. A distributor does not have to be a highly-skilled salesman to promote the DXN products because they are common items like coffee, tea, chocolate drink, soap, shampoo, etc.

4. The products are reasonably priced. In my experience, an average person can easily afford them. This is the main reason why we have more than 5million distributors worldwide.

5. A generous and easy-to-achieve compensation plan. A member doesn't have to spend a lot of money buying tons of products he cannot use or consume just to qualify for bonuses.

6. For me, DXN is a very honest company. I can say that because being with DXN for 16 years, I have never seen the company cheat or take advantage of anybody.

4. What is the secret of your success?

I firmly believe success in DXN is not measured by the car you drive, the clothes you wear, the house you live in, the amount of money you have in the bank, the number of countries you have visited or the DXN status pin that you wear. It is gauged by the

number of people you have helped get what they want in life. Seeing people succeed after helping them

achieve their goals gives me a sense of fulfillment which money cannot buy. I am at my happiest state when a person genuinely says "Thank you for helping me."

5. You have been to Europe many times. What do you like the best about this continent?

I am so blessed to have visited more than 40 countries around the world. Europe is exquisitely beautiful. The architectural structures are intricately designed and the inhabitants are a congruent part of its beauty and glamour. Without the unique character of its people, Europe would be dry and empty. I find Europeans warm, a bit reserved but fun-loving people. However, just like everybody, Europeans are in need of better health and happier lives.

I consider the European market "young and fresh". It has a lot of potential to expand and grow. DXN distributors in Europe have a distinct advantage over distributors in third world countries like the Philippines. In my opinion, people in Europe can easily afford to buy DXN products because they earn better. In the Philippines, an average person has to work for 2 days before he can afford to buy a bag of Lingzhi 3-in-1 coffee. Another advantage would be, a person can travel to and from each country in the continent economically with little or no restrictions. Expanding your network as a DXN member is relatively easy. Also, the delivery system is in place and very efficient. Making products available to any person in any part of the continent will not be a problem.

Europe is one of the best places to be if you are a DXN member.

6. During your presentation you talk about how the success reached in DXN changed your life. Can you please share it with our readers?

Have you ever felt like being crushed by a very big and humongous rock over your chest? That is exactly how I felt whenever I bought basic needs for my family. When I was just starting my DXN business money was scarce. I had to tighten my belt and spend meagerly to make ends meet. I would

always bargain for clothes on sale, buy the cheapest chicken, meat, and vegetables at the market. We even stopped eating at restaurants for a year just to save money to pay bills. As a father and provider, it hurt me knowing I couldn't provide the best for my family. I know they deserve a better life. I am doing DXN because I got tired of being poor, just surviving, and living an ordinary life. I am doing DXN because I love my family. I am so blessed God gave me this opportunity. The weight of poverty that put me down and made me and my family suffer has finally been lifted.

7. How do you spend your time when you are not building your business?

When I started, I did business, product and motivational presentations daily as the sun came up and the moon went down. I enthusiastically made presentations in car garages, inside unventilated rooms, and yes, under the shade of banana and mango trees. The activities I was doing drained the last ounce of energy I had in my body. I can even remember the time when I literally "hid" from my business partners because I was so tired to do a presentation. There were times I asked myself "Am I doing the right thing?" However, I know "work-

ing hard" in DXN is only temporary. After a about two years in DXN, I transformed from "working hard" to "working smart". I discovered the only way to have more time for my-

self and my family is to help people become the best version of themselves. The better they become, the more independent they'll be and the more time I will have.

What I love most about my DXN life is my TIME and FREEDOM. I can do an-

anything, go anywhere, anytime I want to do it. Now, I have full control of my life. I can enjoy the feeling of accomplishment that water color painting brings, the freshness of mountain climbing, the thrill of fixing cars, the excitement of exploring new cities and cultures, and the challenge of bonsai work anytime I want to.

And the best part is, I can still do DXN while doing what I love most.

8. We hope to see you soon in Europe again. In the meantime please leave a message to the European business builders.

The best decision I have ever made, aside from marrying my wife, is joining DXN. I cannot imagine what life would be like without DXN and my wife, of course! DXN has totally helped me in fulfilling the life I really would like to live. A life I can control, without the worry of debt, full of abundance, free of disease, with unending happiness, and total fulfillment. A life of FREEDOM! I truly hope becoming a DXN member was your best decision too. If I can do it, you can do it.

Happy networking!

DXN Spain's 1st anniversary,

Hotel Cavana,
La Manga

DXN SPAIN CELEBRATED ITS FIRST ANNIVERSARY!

The quickly growing Spanish market had a very important event in September: DXN arrived to its first year in this wonderful country! The Spanish members were very excited about this day and so were Mr. Jijith and Dr. Savera who had been touring Spain exactly in that very period. Let's see how this fantastic anniversary went!

TEXT WRITTEN BY
Alfredo Ruiz

On Saturday, September 5 at 11:00 we celebrated the first anniversary of DXN Spain, our anniversary.

We had a cloudy day with rain threatening us but we did not care, the sun

is always shining in DXN, we have our own shine.

The event was held in La Manga, where DXN Spain was born. It was from here that the DXN products became known in Spain and where the first distributors were convinced.

La Manga is a paradise of the Costa Calida of Murcia and the Hotel Cavana is one of the best hotels in the region. Mr. Jijith, DXN's International Marketing Director, Dr. Rajesh Savera, Ayurveda Physician, Psychotherapist and Counsellor and Ms. Jessica Arroyo, DXN Spain's Country Manager and almost every highly qualified

business builder of the European network in Spain traveled here.

The first person to say a few words was Mr. Jijith, who thanked Andrea, Alfredo and our team. Murcia is the birthplace of DXN Spain, for this reason La Manga was chosen to host this event.

Mr. Jijith also had some words of encouragement and motivation to continue growing. As always Mr. Jijith's presentation was very successful.

After him Dr. Savera took the stage. He held a magnificent presentation on nutrition and about how to lead a healthy life with the help of the DXN products.

Later we had a buffet lunch in an exclusive lounge with direct views to the Mar Menor. The excellent food of the Mediterranean cuisine was enlivened with testimonies, personal experiences and human relations.

As a culmination of this anniversary we went to the terrace to enjoy our DXN coffee accompanied by delicious desserts.

Both children, the DXN distributors of the future, and adults enjoyed the event and had a great time. Many swam in the hotel's pool; in the end also the weather turned to be on our side, for a moment even the sun shone, but as I said, we had all the shine in our eyes, it was an unforgettable day.

To end the day, many distributors had dinner together and continued the party until midnight: the party of the DXN family.

**Dr. Rajesh S. Savera,
BAMS, MS (Psych.)**

Ayurveda Physician,
Psychotherapist & Counsellor.

AYURVEDA & DXN LIFESTYLE

As a health and wellness speaker Dr. Savera educates people in understanding how we can live in close harmony with nature.

 **TEXT WRITTEN BY
Dr. Rajesh Savera**

Ayurveda is the ancient Indian system of natural and holistic lifestyle. When translated from Sanskrit, Ayurveda means “the science of life” (the Sanskrit root ayur means “longevity” or “life” and veda means “science.” Ayurveda lays down the rules and principles for us to live in harmony with nature.

Core Principles

The knowledge of Ayurveda was passed on orally through a lineage of sages in India until it was collated into text more than five thousand years ago. The oldest known texts on Ayurveda are the Charaka Samhita, Sushruta Samhita, and the Ashtanga Hrudaya. These texts detail the effect that the five elements found in the cosmic system - earth, water, air, fire, space - have on our individual system, and expound on the importance of keeping these elements bal-

anced for a healthy and happy life. These five elements come together to form the physiological forces that help function the body and the mind. Air and Space come together to form the Vata Dosha primarily responsible for the movement. Fire and Water come together to form the Pitta Dosha responsible for transformation. Earth and water come together to form the Kapha Dosha which denotes stability or formation. Whatever we eat, drink, think, act, etc. fluctuates these doshas there by causing the imbalance. However the body’s ability to come back to normalcy or homeostasis is wellness or health. According to Ayurveda, each person has a dominance of a particular dosha that forms his or her prakriti or natural constitution. The dosha affects not just the shape of one’s body but also bodily tendencies (like food preferences and digestion), and the temperament of one’s mind and emotions.

Ayurveda & DXN Lifestyle

Ayurveda places great importance on one’s pathya, or lifestyle (eating habits and daily routine). Today lifestyle has changed and we need to be very selective in making choices when it comes up to lifestyle products which include supplements, beverages, oral care products, skin care products, etc. Using natural products is the best solution to shift from inorganic living to an organic living. DXN is a new-age herbaceutical company which primarily aims to improve the quality of life by way of using various natural lifestyle products for all age groups.

The concept of a greater significance today in the world of supplements is that of Rasayana. Ayurveda - probably the oldest medical science in the world stressed on the concept of Rasayana. What is Rasayana? A herb or a combination of herbs that cleanses the Strotasas (channels of metabolism) thereby helping

all the seven Dhatus (Tissues) and the mind to be nourished with the food that we eat. The seven Dhatus (tissues) are Rasa (Plasma), Rakta (Blood), Mamsa (Muscle), Meda (Fat), Asthi (Bones), Majja (Bone Marrow),

some daily. Reishi helps by its action as an immunomodulator helping the body's immune system to modulate itself sometimes as a defence against infections and most of the time as a watchguard preventing destructive

it daily, every morning and every night, use it as a mouth cleanser after every meal. Highly recommended for those who eat a lot of sweets especially children and also for smokers. The next in personal care is bathing. Application of oil daily is a ritual of personal care in Ayurveda. It is known as Snehana (Sneh = Love). If one wants to live with the principles of Ayurveda, he or she should incorporate Snehana or Oleation (applying warm oil to the body) daily. Application of oil will soothe the nerves fibers and build up the skin architecture for a long lasting skin lustre. One can choose his or her choice of oil from the Olive oil or Sesame Oil or Palm Oil. Palm Oil is basically warm in nature and best suitable for the cold European climate. At DXN we have Gano Oil which can be part of our lifestyle too. A chemical soap dries up the skin and robs its essential oils which leaves the skin dead dry for fungus and bacteria to thrive on. Choose a soap that has oil in it. Ganozhi soap has palm oil in it and is a best solution to retain our body oils and prevent any skin infections. Ayurveda stresses the importance of having a balanced diet. Diet was basically based on the basis of rasa or tastes. There are six types of tastes that one can perceive namely - sweet, sour, salty, spicy, bitter, and astringent. One needs all these tastes in their diet to keep themselves healthy. Consuming beverages helps us with the tastes or rasas that are missing in a normal diet - Bitter & Astringent. Coffee, Tea, and Cocoa are the three basic ingredients of the majority of beverages in the world. We all love to drink either a coffee, tea or just a simple cocoa drink. These beverages are rich in anti-oxidants and also help to reduce stress. At DXN we have a variety of beverages in combination with a potent oriental rasayana Ganoderma that fits the bill for today's lifestyle. As an ayurveda physician, who believes that leading a healthy lifestyle in close association with nature will bring us to a state of balanced health for both the body and mind, thereby giving us the freedom and time to pursue the purpose of life that we are here to fulfil and not wander in the path of disease and debility.

Shukra (Sperm/Ova). If the tissues are healthy, the organ functioning is optimum and the respective systems of the body work synchronically to give us a feeling of health and wellness. The final essence of a healthy body is the Ojas (immunity for Body & Mind).

According to Ayurveda, Ganoderma Lucidum (Red Reishi), the mushroom that cleanses and rejuvenates the body can be described as a Rasayana. It is said that one needs to consume a Rasayana on a daily basis to maintain healthy tissues or healthy organ functioning for wellness. In diseased or debilitating conditions, rasayana helps in better healing along with other medications and herbs. At DXN's Organic Ganoderma farm in Malaysia, the best quality of Ganoderma is grown and available in capsule form as Reishi Gano (RG) and Ganocelium (GL) - the fruit and the root respectively for us to con-

or degenerative auto-immune responses among body cells and tissues. As an adaptogen, Reishi helps in maintaining homeostasis in the body by helping the body to spring back to normal physiological state and functioning. Reishi's nutritive action helps to improve micro-circulation thereby improving nutrition and cleansing at the cellular level. Ganoderma also is anti-aging and rich in anti-oxidants.

The daily routine called as Dinacharya in Ayurveda starts with oral care. Ayurveda stressed the importance of having herbs used in oral care followed by gargling or pooling with herbal oils. Ganozhi toothpaste contains mint oil and Ganoderma which makes an amazing combination for oral care. Ganozhi toothpaste is probably one of the best anti-fungal oral care cream that I know of. It helps in strengthening the gums and preventing dental complaints. Use

DXN Shop and Café,

Budapest, Teréz krt. 8.

THE GRAND OPENING OF THE NEW HUNGARIAN DXN SHOP AND CAFÉ

Hungary has a brand new and stylish DXN Shop! Not only, there's also a cozy café where you can taste DXN coffees and drinks and enjoy some healthy and delicious food. A must-visit place if you travel to Hungary!

TEXT WRITTEN BY
Edit Kordován

The Grand Opening of the new DXN Shop took place on October 7. 2015 at 4 pm. Everyone was welcome to the ceremony, both DXN members and their guests. Our aim was to reach a high number of attendees so more people could know about the new DXN Shop and Café. This new location gives us the possibility to offer a high level of customer care service in a pleasant location to all our current and future customers. The new DXN Shop and Café is located in a very frequented area of Budapest so it is ideal also for getting here by any mean of transportation.

Before the start of the official ceremony numerous attendees arrived to the new DXN Shop. They were excited to see our new location and they also had the opportunity to purchase products. Moreover, they could see how our customer care works, take a look around

the café and visit the meeting room upstairs.

At 4pm we started the official Grand Opening ceremony, which was en-

riched with speeches, acknowledgements and ribbon cutting.

The ribbon cutting was performed together by Mr. Jijith NK, Internation-

al Marketing Director, László Kócsó, Crown Ambassador and István Böczkös, Executive Director of DXN Europe Kft.

We felt very proud in that moment and we would like to take this occasion to thank everyone who honored us by participating in this event and by sharing our joy.

After the ribbon cutting we invited our guests to share some drinks and cookies with us.

Besides the DXN Shop, we also opened the DXN Café where you can taste only DXN coffee specialties and there are also many delicious drinks made with other DXN products.

The Grand Opening was more than an occasion to open our shop and café, it also offered us the perfect opportunity to have long talks, socialize, share experiences and meet new people.

We are delighted to receive so many positive feedbacks regarding this new DXN Shop. We will continue to do our best to offer the highest level of service so every DXN member will leave our shop happy and satisfied.

DXN and me

media@dxnlife.eu

The European DXN members are very active and they organize meetings and events, they even travel to Malaysia to visit the HQ and the farm. And they never miss an occasion to show their love for the DXN products!

Karine Chapon from France with Dr. Lim at the DXN Farm in Malaysia. Dr. Lim was happy to receive a bottle of good red wine and some delicious Gavottes from Karine.

Lorenzo Gnesutta from Italy was also enthusiastic about his visit at the DXN Farm in Malaysia.

Miki Csipkay from Hungary visited the DXN HQ and Farm in Malaysia, enjoyed the beach and found the time also for work during his stay. That's a great DXN Life!

Ruta Barisnikoviene from Spain is enjoying her well deserved DXN time surrounded by the amazing colors of autumn.

Do you have a picture that captures a DXN moment of your life? Don't hesitate to send it to media@dxnlife.eu!

On October 24, 2015 a very important event was organized by the Spanish leaders about Health, Nutrition and Self-employment in the beautiful city of Logroño. The speakers were Dr. Juan Ochoa, Andrea Papp (TD) and Pedro García (SSD). The event was very successful with more than 110 attendees. Thanks to Cristóbal Mota for the pictures and for contributing to the events' success together with Dr. Ochoa's siblings: Carmen, Lola and Mariano Ochoa.

Judit Faragóné Keserű did not miss the occasion to taste Ganoderma!

Hungarian leader couple Judit Faragóné Keserű and István Faragó enjoyed their visit to Malaysia.

Roland Hebenstreit from Austria took his favorite products to breathtaking heights.

Do you have a picture that captures a DXN moment of your life? Don't hesitate to send it to media@dxnlife.eu!

Businesswomen in Malaysia

Marzena Prysok and Agnieszka Czerczak from the UK present their favorite products.

Businessmen in Malaysia

Andrea Molnárová participated in the journey to Malaysia and she had a really good time.

Fabrizio Bassanesi from Italy and his favorite DXN products.

Do you have a picture that captures a DXN moment of your life? Don't hesitate to send it to media@dxnlife.eu!

Summer memories from Mária Končalová. The last day of August in the small Slovak town of Želiezovce they organized a very successful event to say goodbye to summer. Numerous DXN members participated in the event, they enjoyed the delicious meals, desserts and DXN coffees. Mária's Hungarian sponsors, József and Vali Specht also joined the event.

Barbora Lisa Schneiderová from Slovakia participated in the III. European Leadership Camp in Barcelona, Spain.

Jane Yau, Ganotherapy Consultant and Susanna Pálma Krusinszki, Editor-in-Chief of DXN Life - European Editon before Jane's health seminar in Milan, Italy.

Do you have a picture that captures a DXN moment of your life? Don't hesitate to send it to media@dxnlife.eu!

PRODUCT FOCUS

DXN CHUBBY BABY OIL

A silky soft skin conditioner which perfectly moisturizes baby's delicate skin. Gently touches and protects skin from dryness, chapping and flaking. Preserves moisture and leaves skin feeling baby silky soft and smooth all day long.

Non Comedogenic: does not block skin pores.

Ideal for eye make-up removal as well.

Components: Helianthus Annuus (Sunflower oil), Triticum Vulgare Germ (Wheat Germ oil), Equisetum Arvense (Field horsetail), Commiphora Myrrha

Packaging size: 200 ml bottle

PRODUCT FOCUS
