Dato' Dr. Lim Siow Jin

Founder and CEO of
DXN Holdings Bhd.

WELCOME LETTER FROM DATO' DR. LIM SIOW JIN

Good morning and Happy 2016!

2016 is turning out to be another very strong DXN year while we continue to grow and develop DXN in all reaches of the globe. From inception, we have created a platform in which close relationships, both between DXN, leaders and members, are nurtured along the way. We appreciate everyone's support and we look forward to another 100 years of success!

In 2015 we took significant steps to develop and strengthen our global coverage and varieties of DXN.

As DXNers, there are three key challenges that you must address this

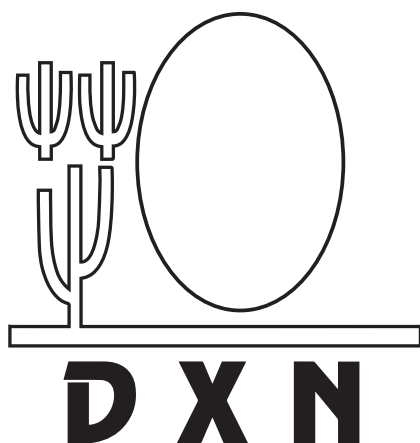

year and every year: continue your efforts in sponsoring new DXN members, consume or use more DXN products and share all the knowledge and experience you learn from the products. Attract new members from the widest range possible, lead them well by starting from our simple plan of 300ppv a month. Duplicating the successful steps of leaders through tireless efforts, it is truly inspiring to see the passion and talent that drives DXNers the way towards the ultimate goal: financial, health and time freedom.

In this age of globalisation, we need to make extra efforts to strengthen and widen the DXN networks. With

the internet, members and leaders can be linked through email, Skype, Facebook, WhatsApp etc. Make full use of these modern devices while DXN eWorld is there for everyone to shop online, run DXN online, and most importantly, as DXN always says – One World One Market, let's create the future together. Let us recognize that there is but ONE DXN and that wherever we travel, wherever we go, DXN is positively where we realize our DREAMS.

Wish you all a happy and healthy 2016.

*Dato' Dr. Lim Siow Jin
DXN's founder and CEO*

Mr. István Böczkös

DXN Hungary's Director

INTERVIEW WITH MR. ISTVÁN BÖCKÖS

From this issue on, we are going to introduce you who is working for you in the European offices. We are starting this series with Mr. István Böczkös from Hungary, who also played a key role in the opening of the European market. Let's see how was the beginning and why he is so happy with his job!

Susanna Palma Krusinszki

1. How and when did you meet DXN?

I already knew the Ganoderma and I admired this healing mushroom, when in 2009 I heard that DXN would like to launch the European market. I immediately contacted László Kócsó in order to start introducing the DXN products and to open the European market together.

2. As the Director, what kind of difficulties did you have to face during the opening of the market?

In my case, the opening of the market was special, because Dato' Dr. Lim trusted us and our task was not only to open the Hungarian market, but to launch the DXN business in the whole European continent. Basically, the Slovak and Czech market started at the same time as the Hungarian did.

It was not an easy task because the European regulations are very different from the Asian ones, here they are really strict. We had to obtain the permissions, carry out a European styled Starter Kit, publications and leaflets.

We did this pioneer work slowly but with a lot of enthusiasm because we knew that we were participating in something important that also meant a lot of responsibility.

I must add that I'm very thankful to my family, because they supported me to

that DXN is not only a business, but a mission and the greatest joy is to help

travel and this is when we have time to relax completely.

I'm lucky because thanks to the good development of the market my daily work consists in helping the further evolving of the market and the work of my colleagues with new ideas and solutions.

4. What do you most love about your job?

Very soon after starting, I realized

of a healthy life, happiness and financial independence is a success given only to a few and I'm grateful for it.

Morover, Andrea and I reached the ETD status in the network and I consider it a huge success as well. Here by I would like to say thank you to Dr. Lim for his unconditional trust, to Mr. Jijith NK and Mr. Sean Higgins for their professional support, to the Kócsó, Bussy, Czérna and Specht families for helping so much my work in all these years.

7. How do you spend your time when you are not working?

DXN became an essential part of my life so I spend most of my time working. However, the most important thing in the world for me is my family, so I try to spend with them the little free time I have.

8. What are your plans for 2016?

the maximum in those days and every day since then, and they understood that I couldn't spend a lot of time with them because I had to work a lot.

3. What is your typical working day like?

When you can do what you love, you are successful in your job and you live in a happy family, you can consider working as a hobby.

As an entrepreneur, I prepare my own schedule, but I usually work 10-12 hours a day, including weekends. When we have the opportunity, and with DXN it happens very often, we

people with DXN's philosophy and its excellent products.

5. What do you consider the biggest challenge in your job?

I am in a lucky situation because the company gives all the support and help that I need for my job so there aren't any serious challenges. The hard and dedicated work always gives its fruits.

6. What do you consider your biggest success so far?

I think that the 70.000 distributors we registered in the European market that was opened with my contribution and having given to people the opportunity

I think that the most important task is to show the DXN products to more people possible in order to give them the opportunity to live a healthier life, to make their dreams come true with the DXN business, reach financial independence and be happy. If I manage to contribute to this even minimally, then I wasn't working in vain.

Besides work, my goal is to spend more time with my family than I did in the past few years and I also want to dedicate more time to our charity activities.

I wish you all good health, success and a happy life!

**Sándor Bussy and
Éva Szövetes,**

Executive Triple Diamond,

INTERVIEW WITH MR. SÁNDOR BUSSY AND MRS. ÉVA SZÖVETES

A few years ago Mr. Bussy was trapped in the boring routine of running a shop he didn't really like, dreaming of quitting, doing something interesting and enjoying life with his wife. One day Mrs. Éva started to drink the DXN coffee and very soon things changed for the couple.

TEXT WRITTEN BY
Susanna Palma Krusinszki

1. Please introduce yourselves briefly to the readers.

Évi: I have been working in the art field since 25 years, I met DXN as a gallery owner.

I love both the paintings and the net-working and besides my family these two things fill my days.

Sanyi: I used to work as a watchmaker for 25 years. I started as an employee and later I opened my own watch shop which I ran for 15 years. Thanks to DXN today I am a full time networker.

2. How and when did you meet the DXN opportunity?

It was Évi who started to take the DXN coffee and for a long time we didn't even know that it was a product of an MLM company. Later a jeweller friend of mine talked to me about the busi-

ness, I listened to him politely but I told him that due to my previous negative experiences I was not interested in this opportunity. However, a few weeks later I called him and told him

that we had changed our minds and we were willing to start. More than 6 years have passed since then.

3. When did you get the feeling that this was going to work for you?

At the end of the third month after joining we already had more than 100 members in our network. The company's products, policy and philoso-

phy matched perfectly our own values. We met excellent persons, both in the network and among the new downlines. By that time, we already knew that this was going to be a successful business for us.

Also, during the first prize trip that DXN offered us, we realized that besides paying us generously for our work, the company is also thinking about our entertainment.

4. What is the most important thing for you during business building?

It's important to enjoy life so it's important to enjoy business as well.

It's important that we stay credible and that we can show through our own example that success can be reached. We feel responsible for those who believe in us and follow us and we would like to continue being worthy of their trust.

5. This magazine is called DXN Life. Please tell us a little bit about what your DXN Life is like!

DXN for us is not only an adventure, but it is our life, every day of our life. We dedicate all our time to networking and we love to do it with passion. We managed to make come true something that for many people stays just a dream: people usually dedicate their free time to do something they like doing, but we do it as a full time job.

With DXN also travelling became an essential part of our lives, every year we travel to special places and we love it.

6. Did you have any dream that you managed to make come true thanks to the success reached in DXN?

Being able to leave my original job which I never loved doing was a big dream of mine. One of my biggest success is that I could close my watch shop.

With DXN we can travel to wonderful places, we can visit fantastic countries and we can spend our time with networker-friends whose company we truly enjoy. This is a change in the quality of our lives that used to be just a dream for us.

7. What are your plans for 2016?

Work, work and more work. We will continue building the business because one of our big goals is to reach the Crown Ambassador level. In 2016 we hope to take huge steps towards this goal. It's a great joy for us that we can only reach it if our downlines experience the fantastic sensations that we are also experiencing.

8. What is your message to those readers who are just about to start building their DXN business?

Forget everything you once heard or experienced about the MLM.

Start a blank page, start to think in a different way, believe in the company and in yourself.

Start to take responsibility for yourself and your dreams.

Accept the pieces of advice only from the people who have reached more success than you in the network marketing.

Find the way of networking that you like, that you do with pleasure and the most important thing is to DO IT.

Ganotherapy Tour in Turkey

November 2016

THE TURKISH SEMINAR TOUR OF JANE YAU AND WILLIAM GAN

The Turkish market is almost ready for the official opening and DXN's Ganotherapy Consultants Mrs. Jane Yau and Mr. William Gan went on a long tour in the country in order to explain everything regarding the products and to answer all the questions the members had. This tour was special for everyone: Jane and William visited Turkey for the first time and the Turkish members were very excited about the opportunity to learn from them. Let's see how their journey was!

TEXT WRITTEN BY
Betty Gün

The Turkish DXN members were very enthusiastic about Jane's and William's visit. Mr. László Kócsó CA, who is working on the opening of the Turkish market, told them during the introductory DXN MLM seminars that they were going to receive more information about the products from the Ganotherapy Consultants of DXN: Mrs. Jane Yau and his son, Mr. William Gan.

We were very excited during the period before the arrival of Jane and William because we wanted to organize their two weeks stay here so that they could enjoy both work and freetime. We organized their programme leav-

ing enough freetime after seminars to visit the city in question in order to understand better the culture and en-

joy the gastronomy as well, because the Turkish cuisine is famous all over the world.

Turkey is a big country so it was important to organize the events in those cities where many people could arrive. Together with László we decided for 6 major cities: Adana, Izmir, Antalya, Ankara, Bursa and Istanbul. Our guests arrived with smiling faces, full of positive energy. On our way to the hotel they were enchanted by the magical Istanbul's view and they had no idea about the wonders they were going to see and the fantastic experiences they were going to live during those days. After taking them to the hotel I let them relax because they were facing a hard one-week-tour.

Their first trip was to Adana and from there they went to Izmir and Antalya. A lot of people came to listen to their seminar. Jane and William are very nice, they love their job and they are very professional, our enthusiastic leaders were more than glad to wel-

come them in every city. The leaders made sure they had everything they

needed for the presentations and showed them the main sights. For the Turkish people it is very important to

make sure that their guests are enjoying themselves and they offer them drinks and food all the time. In one occasion also Jane and William pointed out how much food they have here. We laughed, we only wanted them to try everything while they were here. They loved the freshly squeezed pomegranate juice and the variety of vegetables and fruits, the famous Turkish köfte and the sweets. They told me that Antalya was a particular experience for them. Our two nice leaders took them for a sight seeing tour. It's important to know that Antalya is one of the most famous sea resorts in Turkey, a tourists' paradise on the Mediterranean coast that offers a breathtaking view. Jane and William visited the Düden waterfalls and the old city. One of our leaders in-

vited them to his home so they could see how a Turkish family lives. They fell in love with Antalya and promised to be back there very soon.

After one week of touring, Jane and William came back to Istanbul and finally we could enjoy their seminar as well.

Their first seminar was on the European side of the city, not far from Taksim Square. The conference room was full of people. We listened with attention to their fantastic presentation during which they answered the questions regarding the products. Jane has an incredible energy that she passes on also to the attendees. During the presentation we danced, sang and did some workout as well.

It was nice to see that the attendees

were not only Turkish but they came also from other countries. The best thing about DXN is that we can meet

for those who visit Istanbul, it belongs to the Istanbul feeling, just like the simit rolls which we ate in front

people from all over the world and we can become friends with them. It was fantastic to see the atmosphere and the sense of belonging they created. After the presentation Jane and William gladly answered many questions. This tour was important because people could learn more about the products, ask questions about illness and Jane and William gave tips for a healthy lifestyle as well.

After the first seminar in Istanbul we had two free days and we dedicated them to sight seeing. For our guests it was their first time in Istanbul so it was a pleasure for us to show them the city. We wanted to show them all the main sights. The first day we ate a fish sandwich in Eminönü by the sea, here they grill and fry the fish directly on the boats and put it in half a loaf of bread with slices of onion. It's a must

of the famous Kız Kulesi enjoying the sunshine on the beach with a glass of Turkish tea in our hands.

We took a lot of pictures together so we could share our experiences also with those DXN friends who haven't been to Turkey yet. The Turkish market will open very soon and I hope that we'll arrive to the top in our activity and maybe we will be able to offer also the possibility to organize a

After lunch we visited the Grand Bazaar. There is an incredibly wide offer for the visitors and they can even try the sweet lokums (Turkish delight) without any problem. The Kapalı Carşı building is breathtaking and very original. There are so many things to see, jewels, spices, seeds... I was curious to see the faces of Jane and William and I was happy to see they really enjoyed being there. We visited also the monumental Hagia Sophia museum, the Byzantine orthodox cathedral.

The next day we went on a cruise and we visited the city by car in order to see more sights possible.

camp for the best leaders of the world in Antalya.

We work with amazing products, we have excellent trainers and an exceptional marketing plan. We are thankful to László Kócsó for having introduced DXN to our country and also two excellent human beings who work with us: Jane and William. The farewell at the airport was not easy, but we agreed that this wasn't the last time we met. We are launching the market and we will meet in different points of the world because One World One Market!

November 12-13-14, 2015.

DXN MIDDLE EAST 8TH INTERNATIONAL LEADERSHIP CAMP

TEXT WRITTEN BY
Saleem Shajeer

The 8th Edition of the DXN Middle East Leadership Camp had been successfully concluded in the Grand Mercure Mountain Oasis Resort in Jebel Hafeet, Al Ain - UAE. 120 DXN Members hailing from 20 different countries have participated in the programme which was held on 12th 13th and 14th November 2015.

8 recognised international trainers who had been sourced out from different DXN countries around the globe have made the camp one of its kind with their excellent training modules. The programme had been scheduled in such a manner that attendees were enriched with a well balanced knowledge on DXN Products, System and Marketing. Certain interactive personality development sessions also were kept as part of the camp by which attendees had got a platform to break their comfort zone and thereby to improve their confidence and skills.

The second day of the camp ended with an entertainment session filled with local Arab art forms and magic show. The three day camp concluded with a participants felicitation session where all attendees received a certificate and a plaque.

After the winding up session, the participants had left to their home countries with their minds filled up with newly gained knowledge, hearts filled up with abundant joy, spirits filled up with heightened motivation and eyes filled up tears of farewell.

**Dr. Rathna Vasupal and
Prof. K.N. Vasupalaiah,**

Crown Ambassadors,
India

INTERVIEW WITH DR. RATHNA VASUPAL AND PROF. K.N. VASUPALAIAH

For the first issue of 2016 I made an interview the first Indian Crown Ambassadors. Before meeting the DXN opportunity Mrs. Dr. Rathna Vasupal was working as a doctor and she was also managing her own nursing home. Her husband, Mr. Prof. Vasupalaiah worked as an Economics professor. With DXN they reached financial freedom, quit their jobs and started to enjoy life together with their children, having enough assets to assure also their future.

Let's see their success story!

TEXT WRITTEN BY
Susanna Palma Krusinszki

1. Please introduce yourselves to the European readers.

My name is Dr. Rathna Vasupal. I have M.B.B.S., F.C.G.P., F.C.I.P., E.C.F.M.G.(U.S.A.) qualifications and I'm a specialist in family medicine. I'm also a qualified Modern Medicine Practitioner and for 40 years I had my own hospital. Now a I'm fulltimer in DXN.

2. When and how did you meet the DXN business opportunity?

I'm very happy that a person who came to India from Malaysia in 1968

to study medicine introduced DXN to me 25 years after achieving my medi-

cal degree. He is my sponsor, Dr. Clarence Stamislans.

3. What is the most unique thing about DXN in your opinion?

There are several unique things about DXN. The high quality health products, including Reishi, the strong financial background, so you don't have to worry about any crisis, the very stable remuneration plan that assures financial security for more generations, if one works sincerely.

Secondly, you have to know the marketing plan, so you can calculate the compensation for your efforts.

Thirdly, you have to train the team especially the 1st generation in order to duplicate the same.

Serve the customers and train the team members regularly. Build dreams in them, let them see the great lifestyle and the stable life for generations with a royalty income.

6. What's the most important thing that the success with DXN brought

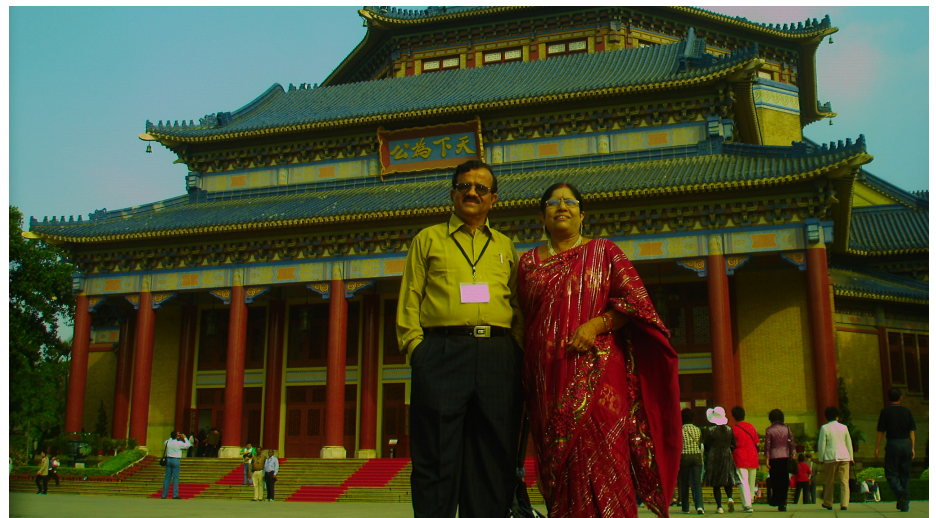

4. What is the secret of your success?

The secret of success has many segments:

- Building a large global network over the years very patiently duplicating the network trainings.
- Having patience to listen to the team members and being able to advice them, to find solutions for their problems.
- The most important thing is to keep a very good interaction and an honest affection through the business relationship with all the team members.

5. What advice do you have for someone just starting out this business?

In order to succeed in business, first you have to understand how the products work by using them and selling them to the customers.

to your life?

The most important change in my life (also in everybody's life who joins DXN as a networker) is the truth that

"Our parents give us the life but DXN gives us the lifestyle of our choice".

In reality in my life now there is no tension, no high blood pressure), so I am very happy with DXN. I'm happy for my bonus and for being globally recognized as a Crown Ambassador of DXN.

The thing I'm most glad for is that I could turn the illness business into a wellness business.

7. What are your goals now?

Our vision now is to make the world free from health problems and poverty. We follow the guidelines of the visionary Dato' Dr. Lim Siow Jin. His mission to help people around the world to reach health, wealth and happiness through this wellness revolution is guiding us as well.

We are thankful to our beloved Dato' Dr. Lim Siow Jin.

DXN ITALY'S SECOND ANNIVERSARY

On November 28, 2015 DXN Italy celebrated its second anniversary in the stunning location of the Dogana Veneta on Lake Garda. Members from all parts of Italy came together to enjoy the gala dinner, the party and of course the speeches of Mr. Jijith NK, Dr. Rajesh Savera, Mr. Sean Higgins, Crown Ambassador László Kócsó and the Italian leaders.

There is no doubt that Lake Garda is one of the most beautiful places in Italy and the Dogana Veneta in Lazise offers a breathtaking view of the lake. And don't think that it is only for the summer period! We were at the beginning of winter, and there was something magical in the air walking towards this charming location among the old city walls by the moonlight and with the smell of the lake in the air. When we reached the location we felt like participants in a royal ball, we already felt that it was a very special evening.

The celebration started with an Italian aperitivo: we were offered drinks and delicious fingerfood. Mr. Giuseppe Girlando, DXN Italy's Country Manager took the stage to welcome the guests and to introduce the Italian leaders,

who were the first speakers. Star Diamond Manuel Longo, Executive Star Diamond Maurizio Milan, Executive Senior Start Diamond Giorgio Tarallo and Executive Senior Star Diamonds Paola and Carlo Rovelli shared their success stories with the audience. After them Dr. Savera shared a motivating story with us and so did Mr. Jijith who also announced exciting news for 2016: Car Incentive Program for the Italian members and TSIP 2017 in Dubai.

Then the gala dinner started and we all enjoyed a traditional Italian risotto and a salmon filet with excellent

wines from the region. DXN Italy also prepared a special gift for the participants: at our seat we all found a cup that was designed for the occasion! It's a great tradition to prepare cups every year so at home we can have our DXN Italy anniversary cups collection and we can recall these wonderful moments while drinking our Ganoderma Coffee or Cocozhi from them.

During dinner we enjoyed the speeches of Mr. Sean Higgins, the new Marketing Coordinator for the Europe region and Mr. László Kócsó, the first European and the fastest Crown Ambassador of DXN. Mr. Hig-

gins talked about the importance of teamwork, so we can all achieve more and Mr. Kócsó shared his thoughts about the Italian market and how we could make it the best selling market in Europe, and why not, in the world.

The next attraction was the huge millefoglie cake: it was absolutely beautiful and extremely delicious! The cake was cut by Mr. Girlando, Mr. Jijith, Mr. Higgins and Mr. Kócsó.

We also played tombola and a lucky person could win an exclusive weekend in Italy, offered by DXN Italy.

After the cake, Mr. Girlando, Mr. Jijith, Mr. Higgins and Mr. Kócsó gave per-

sonally the pins to the recently qualified Italian members.

The band started to play music in the other hall and the dancing started. Those who didn't want to dance took the occasion to chat and catch up on news with the others. It was nice to see each other again and wish happy holidays in person to the friends we made thanks to DXN.

Special thanks to Mrs. Elerosa Mari and Mr. Giuseppe Girlando for the organization and see you all in summer by Lake Garda for the IV. European Leadership Camp, which is going to be held between June 24 and 26, 2016.

Save the date and see you at the top!

Budapest, Hungary

I. DXN BUSINESS BUILDERS' DAY IN BUDAPEST

The Hungarian DXN members held their last business building seminar of 2015 on December 5. The networkers who were responsible for the organization of the event were very excited about this day and so were the attendees because the leaders introduced several new things in this occasion.

TEXT WRITTEN BY
The event's organizers

A new location was chosen for this event: the biggest cinema of Budapest with a capacity of 500 participants. Thanks to the technical installations of the location we enjoyed fantastic sounds and pictures. The videos and presentations we prepared for the show and for the recognition ceremonies as well as the live pictures of the event that the professional video staff was shooting with two cameras appeared on Hungary's biggest screen. The leaders consider this a new chapter in the history of the DXN events, from now on the events will be different in number of attendees and sensations. It was also Saint Nicholas' Day, in Hungary Santa Claus brings gifts on this day, so at the entrance every participant received a chocolate Santa Claus. And when they entered the huge theatre they already knew: that day was going to be fantastic.

The organizers managed to include in the programme everything that an event like this has to contain. In the case of an important event like this the mes-

sage is that the DXN business works and the networkers who are doing it are successful. The most useful tool to present this is showing the fresh results and the new qualifications. Considering the number of pins and plaques by the stage it was clear that we had an important day from this point of view. The host of the event was Mr. Miklós Csipkay. It's not the first time Miklós plays this role but this time it was special also for him because he was a new Diamond.

First, we listened to Mr. Szilárd Mátrai SSD who talked about the main driving force of our business: the WHY. He explained with several details why he chose DXN and gave us so many reasons and arguments that I have never heard summarized like this before. One of the key sentences of his presentation was this: *"Forget all the reasons why it wouldn't work and believe only in the one why it will work!"*

During the first session of recognitions we met those business builders who have reached the SA level in the past months. While our colleagues reached

the stage the audience could see a fantastic video on the screen: the SA pins exploded out from a background of a galaxy turning around. It was pretty spectacular, but on the other hand we were in a cinema, weren't we?

The stage was full of recently qualified members and Crown Ambassadors Mrs. Anikó Kócsó-Fodor and Mr. László Kócsó handled the pins to the members and also Mr. Sean Higgins, the new Mar-

keting Coordinator for the Europe Region felicitated them for the achievement.

The programme continued with Mr. István Böczkös, DXN Hungary's Director who showed the participants the brand new world-class office that was recently opened in the heart of Budapest.

Every DXN member loves challenge, competition and the reward. The 300 PPV Club is a program in which you get rewarded. Each month the list of the qualified members goes online and the members can feel proud. Ilona Kaufman and László Tamás Diamonds explained the advantages, the goal and the importance of this program. We

from Crown Ambassadors Mrs. Anikó Kócsó-Fodor and Mr. László Kócsó and Mr. Higgins.

In his introduction speech Mr. Sean Higgins closed these successful 7 years and opened the following successful 7 ones. He also assured the attendees that he will use all his experience and knowledge for the benefit of the DXN

networkers. He said that he is a team player and a team can be a winning one even if it has more star players, and all the members of a winning team are winners.

After his speech the Diamonds re-

ifications. The photos of the couples appeared on the screen together with their names accompanied by a very emotional music.

The couples were:

Józsi and Vali Specht EDD

Éva Szövetes and Sándor Bussy ETD

Szabolcs and Tündi Czérna EGD

The couples were moved by the emotion and joy and the audience applauded them for the hard work they had put in the business to arrive to this level.

After the recognitions Szabolcs Czérna received a standing ovation from the audience as he recalled the memory of a colleague and friend who recently passed away, Saci Bálint. Saci's dream was to reach the Gold Diamond level and Szabolcs gave his GD pin to Saci's daughter.

László Kócsó CA closed the event, we could also say he put a crown on it.

He talked about the emphatic business building. He gave a very important presentation in his usual simple, laid-back style. The key sentence of his presentation was: "You cannot change anyone with the force but you can make them feel the need of a change." His easy to put in practice tips were just

also found another reason to be 300 PPV Club members: we will receive a discount from the participation fee of the IV. European Leadership Camp! Thank you DXN!

In September more than 30 business builders travelled to Malaysia and it was nice to see their videos. Who wouldn't like to visit the DXN farm?

The Star Rubies also received their pins

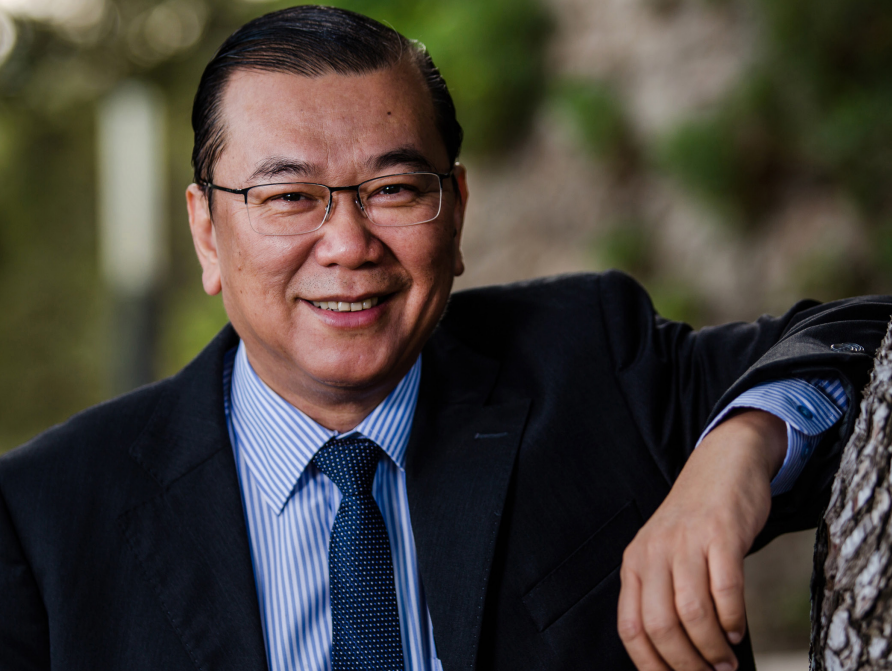

ceived their pins and it was such an emotional moment. We listened to their stories about the difficult beginnings, their success, their lives, it was very motivating.

The ESD qualified members also talked sincerely about how they started and gave some tips to the audience. Then we arrived to those business builders who reached the highest qual-

like a Christmas gift he gave us closing the event.

To prove how useful, important and extraordinary the event was, 2 days after we asked the members to fill in anonymously a survey. We were amazed by the hundreds of positive feedbacks and we can't wait to organize our next event!

personality. He answers questions about DXN, Ganoderma and Spirulina that any member would have asked.

All you have to do is to open the English language Intranet and download

of helping others to reach health and wealth. He never stops, he is always doing research and he is open to the members' suggestions and ideas.

In these two videos you will see a laid-back, relaxed but still very professional and scientific Dr. Lim and you will understand his friendly but yet determined

the videos from there. Make sure your downlines get them as well and use them to build an even stronger business in 2016!

DXN and me

media@dxnlife.eu

The European DXN members are very active and they organize meetings and events, they even travel to Malaysia to visit the HQ and the farm. And they never miss an occasion to show their love for the DXN products!

DXN Slovakia celebrated it's 4th anniversary.

Do you have a picture that captures a DXN moment of your life? Don't hesitate to send it to media@dxnlife.eu!

Mr. Renato Real SD and his lovely family had a very good time at DXN Italy's 2. Anniversary party.

Dr. Anikó Farkas and Ms. Irén Leib with Mr. Sean Higgins, the new Marketing Coordinator for the Europe Region.

Ms. Enikő Mezei and Mr. Lajos Sándor enjoying their journey in Malaysia.

Irén Leib SA and Beatrix Futó at the 1. DXN Business Builders' Day in Budapest.

Zoltán Bojtos SD and Csilla Bojtos-Sváb SD (in the middle) and their team arrived to the 1. DXN Business Builders' Day from many countries: Slovakia, Romania, Austria and of course, Hungary.

Do you have a picture that captures a DXN moment of your life? Don't hesitate to send it to media@dxnlife.eu!
