Dato' Dr. Lim Siow Jin

Founder and CEO of
DXN Holdings Bhd.

WELCOME LETTER FROM DATO' DR. LIM SIOW JIN

Good morning DXN!

As I have always said, nothing is impossible in DXN. You work hard, your contribution pays! Mr. Denesh Chinamoothoo, our FIRST DXN Crown Ambassador from Mauritius, Mr. Rafael Diaz, our FIRST DXN Crown Ambassador from Latin America and Mr. Savellano, Eustaquio B.JR, our LATEST DXN Crown Ambassador from the Philippines; their tireless effort, unwavering commitment and relentless determination led them to make their dreams come true in DXN. Heartiest congratulations to Mr. Denesh, Mr. Rafael Diaz and Mr. Savellano, Eustaquio B.JR.

Another GREAT news; we have now reached the position of 24 worldwide under the DSN (Direct Selling News) global 100 ranking for the year 2015. A giant step forward for all the 6,000,000 DXN members from more than 180 countries around the world. To work towards the goal of reaching the top 20 in the industry, let's continue to sponsor new members from every region, consume DXN products for better health and share experien-

ces to achieve goals. As the world leader in Ganoderma products, the system of DXN is the system of success and as we practice what we believe, each destination will guide us to new beginnings and success!

The DXN philosophy of „One World One Market“, keeps us united as 1 BIG family so let the remarkable success of the DXN family inspire and encourage you to do better. Be proud of all that you've achieved so far and always remember that your hard effort is the best investment for a bright future in DXN!

Thank you and see you at the top!

Mr. Miroslav Palatinus Ing.

Triple Diamond

Slovakia

INTERVIEW WITH **MR. MIROSLAV PALATINUS**

Mr. Miroslav Palatinus Ing. from Slovakia is among the oldest members in DXN in his country and he is the true demonstration of the fact that success doesn't depend on your age. Thanks to DXN he is enjoying his early retired years with his wife and their DXN life is so full of entertainment and travelling that even the younger generations can envy them!

TEXT WRITTEN BY
Katarína Mikušová

1. How and when did you meet DXN?

One of my friends from Morava came to me to offer me Ganoderma at the beginning of 2009. He told me how many things Ganoderma could do when health problems come and that I could also earn a lot of money because it's an MLM business. I didn't believe him a word, for sure. However because I didn't want him to bother me anymore I said give me one box of coffee and I will try. What I was really thinking inside my head was "I don't care about your coffee. I have my own brand that costs 1,6 Euros for 0,5 kg of coffee." At that time I didn't know that my long term problem (stomach acidity) had been caused by the coffee I was drinking. Ganoderma solved the stomach acidity problem really quickly and later also the problems related to high blood pressure. I

joined DXN in March 2009. I started to spread quickly my good experience with Ganoderma in my area and to my surprise there were more and more people who managed to resolve their health problems by taking Ganoderma. As more and more people were satisfied with the DXN products and

they started to join me my rewards were increasing too. It came to the situation that I decided to go for early retirement and I started to dedicate my time only to DXN. Thanks to DXN I have been twice to Malaysia, Dubai, Greece, we have been on a cruise in the Mediterranean Sea... DXN has be-

come my life journey. I'm happy I have found people who are following my steps and I'm trying to help them the best I can. I'm one of the oldest DXN members in Slovakia, but I still believe that together with my spouse we can manage to arrive to the top.

to improve their health problems and I'm also happy that some of my members work only in DXN and do this excellent, praiseworthy job.

4. What do you consider the biggest challenge in your job?

2. What is your typical working day like?

Thanks to DXN I have been retired for almost 4 years now, so my days are a bit different. In the morning I get up based on the actual season around 7-8 AM. After my personal hygiene I take RG, GL and Spirulina with a cup of warm water. Then I have my breakfast and I open my computer to see what's new in my structure and in DXN. I plan what to do that day and I try to stick to that plan.

3. What do you most love about your job?

It will sound as a cliché, but it's a happiness that I can help a lot of people

I know for sure that DXN is a global brand, which can change the life of many people. Many of them can improve their health and also their finan-

cial situation to such a point that they become financially independent.

5. What do you consider your biggest success so far?

I'm still waiting for my biggest success. I'm a Triple Diamond for now, but I still have a long journey in front of me to arrive to the top.

6. How do you spend your time when you are not working?

My wife and I live in the countryside. We have a big house with a big garden, where you can find 55 fruit trees and 2 small greenhouses. So you will agree with me, there is still a lot to do. That's the working part. With my wife we are members of a tourist group. We go on many tourist trips around Slovakia during the year and even abroad. Every year we go twice to the spa and twice to the sea. We have 3 grandchildren and we also take care of them. Almost every week we go to a classical dance entertainment. So you see, our life is pretty colourful and we are catching up on what we couldn't do when we were working. This also includes 3-4 public presentations of DXN, 5-6 private presentations and communication with my downlines and giving them advice on the phone.

7. What are your plans for 2016?

The year 2015 was a bit relaxing for me. In 2016 I would like to dedicate myself a lot more to DXN. I would love to go higher in status, so I want to bring up a new SD in my first line.

Rafael Díaz

Crown Ambassador

New York, U.S.A.

INTERVIEW WITH MR. RAFAEL DIAZ

Mr. Rafael Díaz is DXN's new and America's first Crown Ambassador. Also, in June we will have the opportunity to meet him and listen to his success story and pieces of advice at the European Leadership Camp by the Lake of Garda. We couldn't wait until June to interview him and he was happy to answer our questions, so here's a quick introduction to Mr. Díaz's story and the rest you will have to find out by yourself in June!

TEXT WRITTEN BY
Susanna Palma Krusinszki

1. Congratulations for the Crown Ambassador qualification! How do you feel since you have reached the top?

Happy and satisfied, for having helped 20 of my direct downlines to achieve some of their dreams, which was part of my dreams as well. Now my commitment is to continue with more determination so that also the leaders who form my team can achieve the goal of qualifying as a Crown Ambassadors.

I'm still the same person as always, I care about my team, this success will not change me.

2. Please tell us about your journey to success.

My way to my success started when I was conceived and earned my right to life, from that moment on I am in a day to day competition, without giving excuses or complaints, work-

ing hard and always focused on my goals. This status has cost me time and more than a hundred international travels and also several trips in the United States, spending all my

expenses. However these are among the few investments that you have to do in a networking business. And not everything has been easy, I stumbled many times but it has strengthened me, because my roots are so strong and deep as those of a bamboo and has always flowed forward like a river.

3. Do you have any special business construction method?

Yes, I tried to pre-qualify people. I'm always looking for entrepreneurs and people who work, to offer them a plan B in financial terms. This is because those who work never make it to cover all their needs. Those who only wanted to consume the products at the end started building the business as well, because they had seen the results.

That they must feel involved and they have to work hard for the goals of their teams, because this is the only way to make their own dreams come true. Also, they must remember that human beings are very sensitive, in a good or in a bad way, therefore they must be careful and create a sincere friendship with their teams because these relationship make the difference.

6. What is your every day life like?

Well, when I'm in my New York office my working day starts at 6:00 am and finishes at 3:00 am. This is my working routine because I respect my work and my team very much, I'm always available and I always try to use my time the best I can thinking of how to help the next Diamond to qualify. Every day I dedicate time to analyze what's going on, this is my every day routine.

4. What is the best advice you received and that the most useful has been in this career?

That the success in a networking business doesn't depend only on me but on the entire team's work, because this is a business in which people help people and it was very important to put this into practice.

5. What is the most important message that you give your network?

7. Which are your favorite DXN products?

RG, GL, Spirulina, Coccozhi and all the available coffees. I also like Roselle and now Fruzim.

8. Please leave a message to the European readers!

I can assure you that the best decision was joining DXN and with all these years of experience that I have I can

assure you that DXN is a real lifestyle and that we sell solutions and not illusions. Stay focused on the success of your team which is going to be also your success. Never let anyone or anything take away your dreams.

See you in Italy!

DXN EUROPEAN TSIP 2016

MEDITERRANEAN CRUISE

DXN - EXPERIENCE LIKE NO OTHER

What a suiting title for the amazing cruise DXN offered us! After a while, when you are in DXN, you can experience the cruise as a unique gift. You go on dreamy trips, year after year, for the work you did in the past.

TEXT WRITTEN BY
Pavlos and Nancy Chatziagiannis

The experience of the cruise is something that sticks into your mind for a long time. All the good times with good friends and amazing places – you dream about it before you go and certainly you dream about it for a long time after you return.

And what's not to dream about – we had the best itinerary ever! With the most desired destination that we could think of! First the Eternal City, Rome. This cruise was an opportunity to stay more and see the best city in Europe. Rome was wonderful. We were staring at the marvels of this city with an open mouth!

Then, at La Spezia, we had the chance to go to Pisa, it was a childhood dream for me and for many other participants as well. Magnificent! We had the best coffee at the best place, and we started telling

that this really is an “experience like no other!”

Savona, on the 3rd day was a nice and relaxing city, and we needed it. The view from the castle was spectacular. We needed a more relaxing destination – those who went to Monaco did not relax, but we did. The life in Costa

Diadema was so intense! Wonderful breakfast, 4 hour city tour, lunch with great food, coffee, jacuzzi, luxurious dinner, theatre show, dancing... just to name some of the activities we did! What a life! DXN Life!

Marseille was a really nostalgic place. Us Greeks found a plate that stated

that Marseille was founded by Greeks and it felt really good. The city port is a touristic attraction by itself.

Then it got even better! Barcelona! Although we were there last summer for the 3rd European DXN Camp, we couldn't wait to get there again! We had long strolls with the team and the filming crew. Barcelona is glorious in every corner and for many it was the first time to sightsee. We started saying; "Thank you DXN!!!"

On the next day we had wonderful time at Palma de Mallorca. Some of my leaders liked it so much that they even started to think about moving there and doing online their DXN business. The energy was great.

Final day arrived before we could notice and we had the opportunity to be listened by the company and the executives representatives of Dr. Lim. Then, the event totally rocked our world with the motivational speakers and the video announcements. Special thanks to Mr. Jijith NK and Mr. Sean Higgins, and let me not forget Mr. Giuseppe Girlando and Elerosa Mari.

One thing that made this trip exceptional, is that there is no other company that offers such a luxurious cruise to so many people with such a low quota of sales. In other MLM companies you need to have huge sales in order to enjoy this kind of privilege.

The other thing that sticks out is that DXN listens to you. I really enjoyed the leaders meeting that the DXN ex-

ecutive staff had with each country. We know, of course, that when you have a global network and millions of members, the changes take time, but DXN has made a lot of modifications in order to serve the network and we are thankful for that.

The cruise left us with renewed zeal and a feeling of a fresh start. We understand that there is a lot of work to be done, since most people do not know Ganotherapy and are not aware of its power to our health.

So, what is next? Let me explain below. In order to have in sight the future, you must look to the past experience.

When I was MCing for the on board DXN seminar, I didn't have enough time to illustrate why DXN is "Experience like no other". So, thank you, DXN executive staff for the opportunity.

For me, a Passive Income enthusiast, DXN is the ultimate solution, because I can create a steady network of consumers, because "The consumer is our ultimate networker". Building a relationship with the end customer - instead of seeking for networkers

- has helped people transform their lives, just like it helped me transform mine.

This simple concept has made so many people to be able to join the 2016 DXN TSIP from the little and crisis-torn Greece. Having the economy in such a bad shape and with the constant demoralization, it is a miracle that we can enjoy this annual luxury of such a fantastic trip and

with so many of our partners joining.

And, finally, that is the true joy: my efforts could make many of my team's leaders to be able to join the cruise. I have to thank DXN for that. The best thing is that with DXN, your teammates may be completely different personalities, but a common goal unites us under its cause: sharing the wonders of Ganotherapy.

Putting the other in the first place and service the fellow human being like this, is really rewarding by itself. Then, the rewards from the DXN system are good and permanent.

So thank you DXN for letting us enjoy a much different lifestyle than we could normally have and for the extraordinary rewards that allows people to DREAM AGAIN!

Amicably,
Pavlos and Nancy Chatzigiannis
DXN Executive Triple Star Diamonds

The 3rd Spanish Spring Event

April 23, 2016

Hotel Torreón, Granada

THE 3RD SPANISH SPRING EVENT

Spring arrived and as usual, we had an appointment. This time it was in the ancient city of Granada, witness of historical events and facts. There couldn't be a better place to witness our 3rd spring event!

TEXT WRITTEN BY
Alfredo Ruiz Serna

The DXN Spain family met on April 23, 2016 in the presence and the unconditional support of the directors of DXN, Mr. Jijith and Mr. Higgins, and we also had the pleasure to welcome Dr. Savera and the country manager of DXN Spain, Ms. Jessica Arroyo.

We were looking forward to an intense and interesting day. The warmth prevailed before, during and after the event. The technical aspects were impressive, thanks to all the distributors who helped so everything could go without a hitch. Mr. Crisóbal Mota Morales, responsible for all the displays and technical devices, deserves a special mention.

The master of ceremonies was our SSD Mr. Pedro García Rosell. He introduced and animated the event in a masterly manner.

Mr. Jijith started the presentations, focusing mostly on the IOC plan. He resolved many doubts and explained how to develop the plan in an effective and profitable way.

Dr. Savera held one of those great presentations that we are used to hear from him and we learned a lot, as usual.

Mr. Higgins gave us a motivational presentation and charged us up to the maximum to develop our business.

Then Ms. Andrea Papp moved the audience with her very deep and meaningful speech.

There was a live connection with Mr. László Kócsó from Hungary, he had some nice words that surely served as a motivation for many of us.

Later we moved on to the recognition of the new Star Agents and of the new Diamond, Loli Gascó Jimenes SD,

tireless and always cheerful lady, and also her sponsor Bernabe Vidal came to receive his new, well-deserved SSD pin.

Testimonies, good mood, laughter and emotions filled this magical day and as the culmination of this fantastic day we enjoyed a great dinner and a party with karaoke.

The next day many attendees took the occasion of the sunny spring morning to visit the city of Granada and to know its gastronomy.

The Alhambra, the cathedral where we could visit the crypt where the bodies of the Catholic kings rest, is impressive with its gardens and fountains.

Goodbye Granada, thank you for welcoming us and being part of this important event.

1st Portuguese DXN Event

April 30, 2016.

Hotel Real Palácio, Lisbon

THE FIRST OFFICIAL DXN EVENT IN PORTUGAL

April 30th, 3:30 am: the alarm clock goes off. However no, I'm not tired, I'm excited because I'm getting ready for the first official DXN event in Portugal!

TEXT WRITTEN BY
Andrea Papp

Lucrecia, the first Portuguese diamond had been planning this event with the help of her team for weeks. We were so excited about this day! I just couldn't wait to meet the Portuguese diamond team in person. We all knew, we all felt that we were looking forward to a special day.

After two flights full of adventure I finally arrived and while I was in the taxi heading to the venue I felt excited like never to embrace finally the Portuguese teammates. I knew only Lucrecia Cravinho and Isabel Morgado in person, they both participated at our II. Spring Event last year in Malaga.

A little bit after 10 o'clock I'm finally at the Hotel Real Palacio in Lisbon. The first person I see is Isabel, she was nicely indicating the conference room to the attendees, with her usual lovely smile on her face. We greeted

each other with a big hug and I then I was just like flying into the conference room.

The colleagues at the reception greeted me with so much joy and love that I felt really moved, because we have never met before that day.

I entered the room for 100 attendees with tears in my eyes and Lucrecia, the first Portuguese diamond, who is also a great teammate and friend, was already waiting for me.

The company's management was waiting too, we had Ms. Jessica Arroyo,

Then it was time for the recognitions. We handled the well deserved pins to 4 SA business builders (Marta Mendes, Maria José Ferreira, Filomena Acciaioli, Luis Rosa Santos) and to one SD, Lucrécia Cravinho.

We had a delicious Portuguese lunch at a restaurant nearby and then we dedicated the afternoon to the training.

The Portuguese members asked Mr. Jijith to explain the IOC plan and he also answered every single question.

DXN Spain's Country Manager and Mr. Jijith, DXN's International Marketing Director with us as well. I'm truly grateful for their support, so the first

event in Portugal could be also the first official event in this country. Lucrécia opened the event and after her, Jessica spoke about DXN Spain's history and introduced the office and its workers. The Spanish office ships the products to Portugal.

Lucrécia also saw to the translation: we had excellent translators both from English to Portuguese and from Spanish to Portuguese.

The next speaker was Mr. Jijith, who gave a fantastic presentation about the company and the business opportunity. He managed to transmit DXN's philosophy and mentality perfectly and the audience loved him.

I spoke about the basic marketing plan and explained the main points and how they worked in the practice, in terms of bonus.

Two Spanish leaders joined us too: Pedro García Rosell and José Luis Guillen came to Lisbon by car and they "worked on the street" promoting DXN.

Then it was Dr. Savera's turn. He explained how we can maintain our biggest treasure, our health, with the DXN products. The attendees listened carefully to his pieces of advice, we really hope that they are going to follow the indications.

The training ended in the late afternoon, then we answered the last questions and after having understood everything perfectly the attendees went home feeling satisfied.

The majority of the approximately 100 participants consisted of new candidates, which is great for a first event in a country where the company still hasn't officially opened the market.

After Dr. Savera I took the stage. I presented DXN through my own story and I explained how it changed my life and that actually DXN is much more than a business.

We obviously couldn't miss the dinner with our dear friends, Lucrécia and Isabel. It's thanks to them if today we have a team in Portugal and that we could have such a great event.

This first seminar was simply fantastic, from scale 1 to 10, I'll describe it as 11!

DXN Hungary 7th Anniversary

March 19, 2016

Lurdy Ház, Budapest

7 YEARS OF DXN IN HUNGARY

7 years are special. You can hear it all the time that they are crucial in a marriage, in a relationship. 7 years mark an important turning point also in a business partnership. In Hungary in these 7 years we constructed strong relationships with our business partners, who now are close friends and helped thousands of people to change their lives and reach success in DXN.

TEXT WRITTEN BY
Susanna Palma Krusinszki

On March 19, 2016 hundreds of Hungarian DXNers got together in the Lurdy Cinema to celebrate this important anniversary.

During the registration at the entrance they all received a special coffee mug, with the anniversary's logo on it and a sachet of their favorite coffee.

We were looking forward to an intense and rich day: motivational trainings, a health and lifestyle presentation, recognitions, international messages and obviously a delicious cake were in the program.

The master of ceremonies of the event was Executive Gold Diamond Szabolcs Czérna. He hosted the event perfectly with a secure and spontaneous performance.

The program started with a motivational training by Ádám Szalay in which he illustrated us how champions reach their goals. He shared with us the details of his meeting with Nick Vujicic, which was truly inspiring and made many of us realize how lucky we already are with what we have, we just have to decide to do more for our business and then we can all reach

success. Ádám also made us do a few exercises with the DXNer sitting next to us, in order to inspire one another.

After a short Ganoderma coffee break we all got back to the theater to listen to Dr. Sándor Deák's long and detailed presentation about a healthy and correct lifestyle that we can have thanks to the DXN products. His energetic

and informative presentations are always eye-opening and he has already helped many Hungarians to be more health conscious.

We were celebrating a birthday, so we had prepared some interesting surprises for the attendees. Our first surprise guest was Dato' Dr. Lim Siow Jin, DXN's Founder and CEO who greeted the Hungarian DXNers thanks to a live web connection.

After him also Mrs. Jane Yau Gan-otherapy Consultant, Andrea Papp (Triple Diamond) from Spain, Pavlos Hatzigiannis (Executive Triple Diamond) from Greece, Anna Binek (Executive Star Diamond) from Poland and Paola and Carlo Rovelli (Double Diamond) from Italy sent a message to the Hungarian business builders.

The participation of our special guests was the best proof that DXN's One World One Market philosophy works perfectly: it doesn't matter where we are, we are always together, supporting each other and celebrating together.

Naturally, we celebrated also our successful DXN members by recognizing the recently qualified business builders. It was a pleasure to see them on stage and listen to their personal and success stories. We are so different, coming from so different backgrounds, but in DXN we can all become successful! We only need to be determined, work hard and never stop learning.

The last training was held by Danny Blue, Hungary's most well-known mentalist. He entertained us by teaching tricks, making us laugh, sharing his

success story and proved that even through entertainment it is possible to give a meaningful message.

The European Marketing Coordinator, Mr. Sean Higgins also participated in our celebration and he also spoke briefly to the Hungarian DXNers.

The celebration ended with the cutting of a huge cake and we also had some delicious pastries. We didn't really wanted to leave, but the place was closing, so we had to... However, we weren't really sad because the next fantastic Hungarian event is closer than you think: July 11, 2016! See you there!

DXN UK presentations

April 29, 2016 Birmingham

April 30, 2016 London

DXN PRESENTATIONS IN THE UNITED KINGDOM

Three outstanding DXN leaders spent a weekend in April together in the United Kingdom: Mr. László Kócsó Crown Ambassador, Mr. Szabolcs Czérna Executive Gold Diamond and Mr. Sean Higgins DXN's European Marketing Coordinator. They held presentations in Birmingham and in London and they shared the DXN vision and business opportunity with the inhabitants of the island.

TEXT WRITTEN BY
Szabolcs Czérna

This country has lot of residents of foreign origin living and working here, they work hard every single day in order to guarantee a better future for their families. DXN offers a solution to all those people who make long term plans to break away from the circle in which the geographical position or a richer country determines their wealth. In DXN there aren't any limits, you can live anywhere and you can still guarantee your freedom and enough income for a happy and balanced life.

This was the message of the three presentations.

Mr. Higgins presented the company and showed the brand new English language DXN Opportunity Brochure. Mr. Czérna talked about the seven steps that led him to success and that based on his experience can help also

the others to become successful. He underlined the importance of continuous trainings and of the construction of easy-to-copy systems.

Mr. Kócsó shared his own success story with the audience in order to prove that anyone can reach success doing what they are the best at in the con-

struction of the network. He believes that we can reach success even inside our comfort zones, because in this zone we dare to do things and we have also the routine to do them. However, if we want to become really successful, we have to try to keep the balance and dedicate time also to those activities that we are brushing aside.

the growth of DXN in the UK and to support this important development we will hold an all-day DXN UK Start training on July 17, 2016 in London.

We are looking forward to seeing you, your team and everyone who is interested in the Ganoderma products!

During the event we recognized also the recently qualified business builders' success and we handed the Star Ruby and the Star Agent pins to them. One of the Star Rubies went to the operator of the UK Virtual Service Center, Dr. Miklós Varga.

It was a pleasure to see there also the leaders who have higher qualifications, just like Szilárd Mátrai and Henriette Honvéd SSD and Anna Binek ESD. Their teams filled the conference room in London, but we had attendees also from Oslo and Stockholm.

In the next months we will surely see

DXN Bangladesh 15th Year Anniversary

April 16, 2016

Krishibid Auditorium, Dhaka

DXN BANGLADESH 15TH ANNIVERSARY & RECOGNITION NITE

While the entire DXN world is cheering about the success of DXN as the 24th biggest company in the Direct Selling world, DXN Bangladesh stands double cheerful, as it was celebrating its 15th Anniversary on the 16th April 2016 in the Krishibid Auditorium of Dhaka.

**TEXT WRITTEN BY
Rafique Ahmed**

Not just the completion of 15 successful years of DXN Bangladesh made the event very special. DXN Bangladesh is the one and only company which successfully completed 15 years of operations withstanding all the obstacles in the market, now standing tall and high.

With a stunning crowd of more than 1200, the anniversary was graced by all the top achievers and leaders of Bangladesh who traveled from all the corners of the country and who got highly motivated by the inspiring and mind blowing speeches by the special guests from all over the world.

The inspiring speech sessions were delivered by:
DXN Holdings International Marketing

Director – Mr. Jijith NK, who inspired the crowd with company updates and future plans and actions.

He was followed by a special guest, the one who wowed the DXN World by turning the fastest Crown Ambassador in its history – Mr. László Kócsó. He gave an amazing and mesmerizing motivational simple speech in his unique European English accent.

With the addressing of another special guest from Arabia – Mr. Hassan Al Katheri, the crowd was overwhelmed by his authentic information on the genuineness of the DXN system and its strength as Mr. Katheri is a former Chairman in the Ministry of Consumer Affairs in the UAE. Of course, his own cultural attire gave a real feeling of One World One Market.

His speech was followed by another amazing leader of the DXN World: Mr. Harun OR Rashid who spoke in native Bangladesh Language with many eye opening points.

Local leaders and Mr. Rafique also impressed the crowd with their speeches. The event also contained the recognition of Bangladesh's Star Diamonds and above. During this ceremony people from all walks of life are recognized which proves the statement that the success in DXN does not depend on your education, family background, experience, it is only based on your work style and belief in the system.

A true life story from a lady member (Executive Gold Diamond), who was shy to get to the stage, beautifully narrated how the DXN bonus system is financially supporting her family and her daughter's education after the sudden

passing of her husband Mr. Benazir Ahmed Sarkar.

The event was also spiced up with the best cultural shows and dances which stood a real feast for the eyes.

Even though Bangladesh is not a developed country, people accept new ideas which flagged a very bright future for DXN to grow further. The growth of DXN in Bangladesh can be assured because of its stunning population of 160 million and the majority of them belonging to the lower middle class which paves the way towards a very high opportunity for DXN to grow.

DXN and me

PRODUCT FOCUS

DXN WHITE COFFEE ZHINO

To satisfy the cravings of cappuccino lovers, DXN has now come up with a new product which can be easily and quickly prepared. You simply have to add a sachet of DXN White Coffee Zhino into a cup of hot water, mix it together and you are then free to enjoy it with your family at home or with friends in the office without having to wait for a long time at a coffee house. It is topped with a light layer of creamer foam and formulated together with Ganoderma extract.

The best thing about drinking a cup of DXN White Coffee Zhino is having the dense and creamy yet light and airy taste and feeling in your mouth at the same time. The inviting aroma of this instant cappuccino indirectly evokes a feeling of joy after you drink it.

Do not miss the opportunity to try it as you will discover a delicious taste that will bring to mind the original cappuccino from Italy.

Packaging Size: 12 sachets x 28g

PRODUCT FOCUS

BLACK CUMIN PLUS

“The Seed of Blessing”

- Black Cumin (Black Seed) is also known as Habbatul Barakah, “The Seed of Blessing”.
- Originates and is widely used by people in the Middle East, ancient Egypt and India.
